

H-PAD Update

Occasional Newsletter #10, July 21, 2021

This fall...

*Leading Historians!
Political Commentators!
Radical Scholars!
Prominent Activists!*

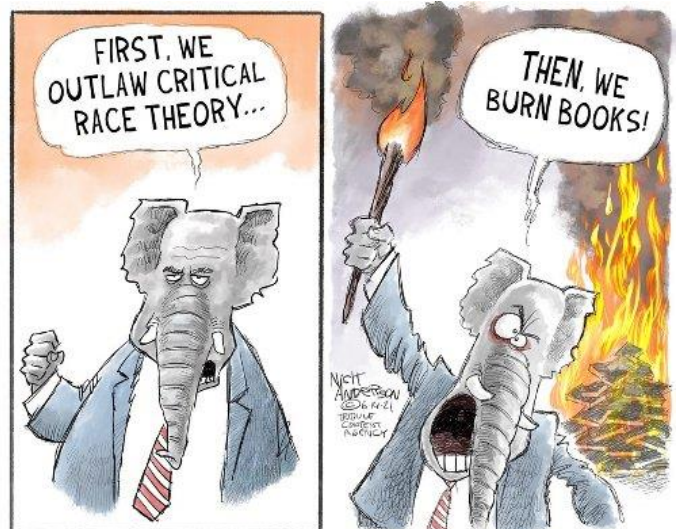

will be available to present via Zoom for free to your classes—college or high school --to campus events, and to political meetings in the community.

H-Pad has renewed our Virtual Speakers Program (VSP) for 2021-2022!

We urge you to take advantage of the excellent and accomplished presenters we have available—thirty-eight at current count with more joining—to enhance your educational work in a wide variety of settings on campus and off. See “H-PAD Virtual Speakers Program” on the H-PAD website at for details of this program (<https://www.historiansforpeace.org/speakers/>). Many of our speakers are also available for in person presentations.

The urgency of bringing sound historical and social analysis to our constituencies has only grown in recent weeks, as the resurgent Trumpist right is now attempting **to enforce outright bans** on the teaching and discussion of progressive and critical ideas, starting with the history and analysis of race and racism, and extending far beyond.

We see VSP as a way to counter the right-wing’s repressive hysteria about critical scholarship, committed analysis, and progressive vision. And as a way to directly expose your students and constituents to some of the most creative progressive minds in this country, with no expense.

Thanks to Nick Anderson and the dailykos.com

Please check VSP out and consider scheduling a virtual speaker!

For more information, beyond the H-PAD website, please contact Andor Skotnes (skotna@sage.edu) or Carolyn “Rusti” Eisenberg (Carolyn.Eisenberg@hofstra.edu)
