

Resolution Opposing Attacks on Core Principles of Education

WHEREAS escalating attacks on academic freedom, free speech, faculty governance, and equity are irreparably damaging education in the United States;

WHEREAS these attacks weaponize allegations of antisemitism and racism to undermine struggles against those real problems, justify massive cutbacks, and silence protest against the U.S.-sponsored Israeli genocide in Gaza;

WHEREAS untenured and adjunct faculty and international students are especially vulnerable to doxxing, firing, and deportation;

BE IT RESOLVED that the AHA condemns these attacks and their specious justifications, and urges all United States educational institutions to join in this opposition.
